INDEPENDENT AUDITORS' REPORT

Board of Trustees
Placer Mosquito and Vector Control District
Roseville, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the general fund of Placer Mosquito and Vector Control District (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of Placer Mosquito and Vector Control District as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension schedules, and other postemployment benefits (OPEB) schedules, as listed on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

As management of the Placer Mosquito and Vector Control District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with the District's basic financial statements, which begin on page 12.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of the resources at the close of fiscal year 2019-20 by \$3,850,982 (net position).
- The District had program and general revenue of \$4,936,925 and program and general expenses of \$5,133,938 for the fiscal year ended June 30, 2020.
- As of the close of the current fiscal year, the District's governmental fund reported ending fund balance of \$3,137,855.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. **Required supplementary information** is included in addition to the basic financial statements.

Government-wide financial statements are designed to provide readers with a broad overview of the District's finances, using accounting methods similar to those of a private-sector business. These statements provide both long-term and short-term information about the District's overall financial status. The government-wide financial statements can be found on pages 12-13 of this report.

The *Statement of Net Position* presents information on all of the District's assets and liabilities and deferred inflows/outflows of resources as of the end of the fiscal year, with the differences reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information on how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements report on the function of the District that is principally supported by charges for services-benefit assessments. The District's function is to control mosquitoes in order to increase the quality of life and decrease the risk of disease transmission in Placer County.

Fund financial statements are the more familiar groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Governmental Fund

The governmental fund is used to account for essentially the same function reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term financial resources, such as cash, that (1) have been spent on District programs during the fiscal year and (2) that will be available for financing such programs in the near future. The governmental fund financial statements can be found on pages 14 through 17 of this report.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented in the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and change in fund balance provide a reconciliation to facilitate this comparison between the governmental funds and governmental activities.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 18 through 39 of this report.

Required Supplementary Information is presented to reflect a budgetary comparison schedule for the General Fund, as well as the schedule of District's proportionate share of the net pension liability, schedule of District's pension plan contributions, schedule of changes in net other postemployment benefits (OPEB) liability and related ratios, and the schedule of the District's OPEB contributions. Required supplementary information can be found on pages 40 through 45 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, net position (assets and deferred outflows in excess of liabilities and deferred inflows) was \$3,850,982 as of June 30, 2020, the close of the District's fiscal year.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

District's Change in Net Position			
	<u>FY 2020</u>	<u>FY 2019</u>	<u>Percentage Change</u>
Revenue:			
Program revenue:			
Charges for services (benefit assessments)	\$ 4,485,664	\$ 4,295,620	4.4%
General revenue (expense):			
Property taxes	342,516	335,942	2.0%
Gain on disposal of capital assets	13,403	6,221	115.4%
Investment and other earnings	95,342	189,210	-49.6%
Total general revenue	451,261	531,373	-15.1%
Total revenue	4,936,925	4,826,993	2.3%
Expenses:			
Public health and integrated vector management	5,045,820	4,915,322	2.7%
Interest on long term debt	88,118	58,495	50.6%
Total expenses	5,133,938	4,973,817	3.2%
Change in net position	(197,013)	(146,824)	34.2%
Net position, beginning of year	4,047,995	4,194,819	-3.5%
Net position, end of year	\$ 3,850,982	\$ 4,047,995	-4.9%

During fiscal year 2020, net position decreased \$197,013 or 4.9% when compared to beginning net position.

The District has capital assets (e.g., structures and equipment). Net investment in capital assets is not in spendable form, and, therefore, is not available to provide future program services. The unrestricted net position of the District is available for future use to provide program services.

The District's primary source of revenue is benefit assessments, which is shown in the financial statements under "charges for services (benefit assessments)", increased by \$190,044 or 4.4% in the number of assessed properties and CPI increase in benefit assessment rates.

Investment and other earnings decreased \$93,868 or 49.6% due to less favorable market conditions. Total expenses increased \$160,121 or 3.2% primarily due to necessary roof maintenance.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Fund Financial Analysis

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

The District's governmental fund is discussed below:

General Fund

The focus of the District's *general fund* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, *fund balance* may serve as a useful measure of a government's net resources available for spending for program purposes at the end of the fiscal year.

As of the end of the current fiscal year, the District's general fund reported an ending fund balance of \$3,137,855 a decrease of \$271,362 from fiscal year 2019.

General Fund Revenue by Source

	<u>FY 2020</u>	<u>FY 2019</u>	<u>Percentage Change</u>
Benefit assessments	\$ 4,485,664	\$ 4,295,620	4.4%
Property taxes	342,516	335,942	2.0%
Investment earnings	62,615	124,274	-49.6%
Miscellaneous	32,727	64,936	-49.6%
Total Revenues	<u>\$ 4,923,522</u>	<u>\$ 4,820,772</u>	<u>2.1%</u>

General Fund Expenditures by Function

	<u>FY 2020</u>	<u>FY 2019</u>	<u>Percentage Change</u>
Public health and integrated vector management	\$ 4,577,648	\$ 4,373,948	4.7%
Debt service	344,432	441,516	-22.0%
Capital outlay	289,358	108,553	166.6%
Total expenditures	<u>\$ 5,211,438</u>	<u>\$ 4,924,017</u>	<u>5.8%</u>

Investment earnings decreased \$61,659 or 49.6% primarily due to less favorable market conditions.

Miscellaneous revenue decreased \$32,209 or 49.6% primarily due to fewer agencies requesting tick testing during the COVID-19 pandemic.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Public health and integrated vector management includes all District operational expenditures which increased by 4.7% primarily due to a major roof repair costing \$254,756, and a minor increase in general maintenance costs.

Capital outlay expenditures increased \$180,805 or 167% primarily due to a necessary upgrade to our data management system and purchase of three District trucks.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's actual expenditures were less than appropriations by \$209,411 or less than 4.02%. The major areas where appropriations and expenditures vary are as follows:

- Salaries and Benefits \$66,870
Appropriations exceeding expenditures for salaries and benefits were due to a lower than projected cost of living increase which resulted in lower salary and benefits expenditures.
- Professional Services \$76,120
Expenditures exceeding appropriations for professional services were primarily due to a higher than projected need for aerial pesticide applications due to increased mosquito abundance and risk of West Nile virus transmission. Additionally, there was unanticipated expense for data integration related to a capital database upgrade that fell outside the scope of the contract.
- Public Health Pesticides \$74,929
Appropriations exceeding expenditures for public health pesticides were due to high levels of mosquito and mosquito-borne disease risk that required more than the originally budgeted amount of public health pesticides. The budget was amended to meet these increase needs, but less pesticides were required than what was requested in the amendment. This is a typical way the District manages annual variability in mosquito risk that can result in high-risk years, requiring more mosquito treatments to protect public health.
- Administration and Public Information \$55,550
Appropriations exceeding expenditures for administration and public information were due to cancellation of outreach events due to the COVID-19 pandemic.
- Travel & Transportation \$13,637
Appropriations exceeding expenditures for travel and transportation were due to cancellation of events due to the COVID-19 pandemic.
- Legal Services \$18,151
Appropriations exceeding expenditures for legal service-related expenditures were due to lower than anticipated legal costs.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

- Maintenance (\$240,213)
Expenditures exceeding appropriations for maintenance related expenditures were due primarily to a planned roof maintenance project originally budgeted as a capital improvement but resulted in a maintenance project instead.

- Capital Outlay \$280,493
Appropriations exceeding expenditures for capital outlay were due to roof repair budgeted as a capital project but later determined to be a non-capital maintenance expenditure.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets, net of depreciation, is \$3,903,966. Net investment in capital assets includes land, buildings and improvements, and equipment and vehicles. The District's equipment and vehicles component of capital assets increased by \$55,419 during the fiscal year primarily caused by the District's purchase of three full-sized pick-ups, John Deere utility vehicle, and miscellaneous equipment. See Note C for additional details on capital assets in the basic financial statements.

Long-term Liabilities:

At June 30, 2020, the District had total long-term liabilities outstanding of \$2,831,069. During the fiscal year ended, total long-term liabilities decreased by \$240,846 because of the following:

- \$259,000 decrease in lease payable due to principal pay down
- \$18,154 net increase in compensated absences due to cost-of-living increase and higher leave balances.

Detailed information about the District's long-term debt is presented in Note D in the basic financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The budget for the fiscal year ending (FYE) June 30, 2021 is \$5,242,731. The District conducted a three-year budget projection that suggests that to support existing levels of service, and meet future reserve goals, the District considered and approved the CPI adjustment for the District Benefit Assessments. The District Benefit Assessments is subject to an annual adjustment tied to the Consumer Price Index (CPI).

This increase was necessary for the District to operate effectively in a fiscally sustainable manner. The District will reevaluate the need for future changes in assessment rates on an annual basis with the goal of maintaining fiscal sustainability while meeting the District's mandate to protect public health from vectors and vector-borne disease.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The following factors were considered in preparing the District's budget for the FYE 2021:

- Need to address and manage increasing pension liability annual costs.
- Consideration of post COVID-19 pandemic changes in the workplace, supply chain, and use of technology to communicate and conduct business.
- Continued need to implement early detection and response plan for invasive mosquito species and mosquito-borne diseases
- Continued need to remain aware of and, to the extent feasible, prepared for novel vector-borne disease threats.
- Continued need to effectively identify and manage the risk of West Nile Virus, Lyme disease and other vector-borne diseases in Placer County.
- Continued need to effectively prevent adult mosquitoes through the use of source reduction measures, biological control, and appropriate use of mosquito larvicides, as well as the ability to quickly respond to high adult mosquito populations with appropriate adult mosquito control treatments.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES (CONTINUED)

- Continued operation of year-round Tahoe-area substation to provide services to eastern Placer County residents.
- Increase in cost or changes in availability and need for mosquito control materials, application equipment, and application services.
- Increasing costs to purchase and apply organic-certified public health pesticides to apply to mosquito development and harborage sites located on and in association with organic agricultural fields.
- Continued need to evaluate efficacy of mosquito control techniques and products, and continually assess and manage pesticide resistance in local mosquito populations.
- Continued need to evaluate efficacy of mosquito control techniques and products, and continually assess and manage pesticide resistance in local mosquito populations.
- Continued need for public outreach and education that addresses immediate and long-term issues relevant to the District's ability to provide services, and to advise the public about vector risks and personal protective measures.
- Increasing need to collaborate with neighboring vector control agencies, business and governmental agency partners, and state association to address issues affecting vectors and vector control on a regional and state-wide basis.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

- Continued need for regular maintenance of facility, vehicle fleet, field data collection and database systems, laboratory, equipment, and other critical infrastructure.
- Continued need to fund measures to comply with the regulatory requirements including the NPDES Vector Control General Permit.
- Increasing need to develop innovative vector and vector-borne disease surveillance and management strategies, techniques, and equipment.

Future Events that will Financially Impact the District

- Should invasive mosquitoes become established in Placer County, it will be necessary to increase capacity to provide new invasive mosquito management to the public. The District will need to balance measures to increase capacity using existing resources and seeking additional funding.
- Increasing costs associated with monitoring and managing insecticide-resistant mosquito populations, including developing, testing, and implementing novel insecticide management strategies.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Placer Mosquito and Vector Control District, 2021 Opportunity Drive, Roseville, California 95678.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCE OF THE GENERAL FUND TO THE
STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Net change in fund balance \$ (271,362)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	289,358
Depreciation expense	(351,393)

The sale of capital assets provides current financial resources to governmental funds, but effects net position, only to the extent of the gain on sale.

Removal of the net book values of capital assets disposed of during the reporting period.	(3,151)
---	---------

The repayment of principal on the certificates of participation consumes the District's current financial resources, however, does not have any impact on net position.	259,000
---	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the District's fund.

Change in accrued interest payable	2,642
Change in compensated absences	(18,154)
Amortization of premiums, discounts and deferred amount on refunding	(5,328)
Change in net pension liability and related deferred outflows/inflows of resources	(105,244)
Change in net OPEB liability and related deferred outflows/inflows of resources	<u>6,619</u>

Change in net position of governmental activities	<u><u>\$ (197,013)</u></u>
---	----------------------------

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

In May 2000, Placer County voters approved an assessment to provide funds to set up the Placer Mosquito and Vector Control District (District). The District’s objective is to control mosquitoes in the western portion of Placer County. Program activities include eliminating mosquitoes in their larval stage chemically, as well as with mosquitofish, monitoring diseases associated with local mosquitoes, fogging to reduce adult populations, and public education.

The District has a governing board composed of one member appointed by each of the following: Cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, Town of Loomis, and the Placer County Board of Supervisors.

Accounting Policies

The District accounts for its financial transactions in accordance with the policies and procedures of the County of Placer (County). The accounting policies of the District conform with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the District’s activities. The District is only engaged in governmental activities and is supported by benefit assessments.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include direct charges to customers based on voter-approved debt by property assessment.

Separate financial statements are provided for the District’s governmental fund. The General Fund is the general operating fund of the District and is used to account for all the District’s financial resources.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for on a spending or “financial flow” measurement focus. Their reported fund balance is considered a measure of “available spendable resources.”

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The governmental fund is accounted for using the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current accounting period. Expenditures are recognized when the related fund liability is incurred (when goods are received, or services rendered). Revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year.

Cash and Investments

The District maintains cash in the Placer County Treasury where it is pooled with other County funds. The County Treasurer's investment pool is subject to oversight by the Treasury Review Panel. The District also maintains funds with Vector Control Joint Powers Agency (VCJPA) and fiscal agents.

The County's pooled investments are stated at fair value. The value of the District's pool shares that may be withdrawn is determined on an amortized cost basis, which is different than the fair value of the District's position in the pool.

Capital Assets

Capital assets, which include property (e.g., land), plant (e.g., buildings and improvements), land improvements (e.g., fences and parking lots), equipment (e.g., vehicles, computers, office equipment and software), and intangible assets (e.g., software, easements), are reported in the applicable government-wide financial statements. Capital assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated acquisition value at the date of donation. Capitalization thresholds are \$5,000 for equipment, \$50,000 for buildings, improvements, and infrastructure and \$100,000 for intangible assets.

Depreciation on capital assets and improvements is provided using the straight-line method. The estimated useful lives are as follows: buildings and improvements – 10 to 50 years; land improvements – 10 to 40 years; equipment – 2 to 25 years; and intangible assets – 5 to 15 years.

Deferred Outflows/Inflows of Resources

The statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an expense/expenditure until then. The District has recorded deferred outflows of resources related to pensions and OPEB, which are discussed in more detail in notes F and G, respectively.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources (Continued)

The statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized until then. The District has recorded deferred inflows of resources related to pensions and OPEB, which are discussed in more detail in notes F and G, respectively.

Pensions

For purposes of measuring the net pension liability and deferred inflows/outflows of resources related to pensions, and pensions expense, information about the fiduciary net position of the District's cost-sharing multiple-employer defined benefit pension plan participating in the California Public Employees' Retirement System (CalPERS) plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, the OPEB plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Compensated Absences

District employees accrue vacation at varying amounts based on length of service and sick leave at a rate of ninety-six (96) hours a year. An employee's vacation accrual may not exceed two hundred and forty (240) hours. Sick leave hours not used during the period are carried forward to the following years with no limit as to the number of hours that can be accumulated. Employees are not compensated for accrued but unused sick leave upon termination of employment; however, accrued but unused sick leave at the time of termination can be used as service time for purposes of retirement benefits, so long as this is consistent with the applicable contract and statutes of the California Public Employees' Retirement System (CalPERS).

Net Position

The government-wide financial statements utilize a net position presentation. Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The District's net position is categorized as net investment in capital assets and unrestricted.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position (Continued)

Net Investment in Capital Assets – This category groups all capital assets into one component of net position. Accumulated depreciation of these assets reduces the balance in this category. Debt incurred and outstanding to construct and/or acquire capital assets, net of unspent proceeds, also reduces the balance in this category.

Unrestricted – This category represents net position of the District, not restricted for any project or other purpose.

Fund Balance

In the fund financial statements, the governmental fund reports fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

Nonspendable fund balance – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.

Assigned fund balance – amounts that are constrained by the District’s *intent* to be used for specific purposes. The intent can be established at the highest level of decision making (Board of Directors).

Unassigned fund balance – amounts that constitute the residual balances that have no restrictions placed on them.

The Board of Directors establishes, modifies, and rescinds fund balance commitments and assignments by passage of an ordinance or resolution. Assignments also require adoption of the budget and subsequent budget amendments that occur throughout the fiscal year.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, followed by the assigned, committed, and unassigned resources as they are needed. Committed, assigned and unassigned fund balances are considered unrestricted.

Revenues

The County administers the District’s revenue. The County bills and collects revenues through benefit assessments added to property tax billings. In addition, the District receives a percentage of the 1% property tax ad valorem rate. All receipts are deposited directly into the County’s pooled cash fund for the District, after charging the District a 1% administrative fee. The District considers interest earned and property tax allocations to be general revenues.

Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurement

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles, which provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District is a participant in the Placer County Treasurer's Pool (County Pool). The County Pool is an external investment pool, is not rated and is not registered with the Securities Exchange Commission (SEC). The Placer County Treasurer's Review Panel conducts County Pool oversight. Cash on deposit in the County Pool at June 30, 2020, is stated at fair value. The County Pool values participant shares on an amortized cost basis during the year and adjusts to fair value at year-end. The District also has cash invested with bond fiscal agents and Vector Control Joint Powers Agency (VCJPA). For further information regarding the County Pool, refer to the County of Placer Comprehensive Annual Financial Report.

Effect of New Governmental Accounting Standards Board (GASB) Pronouncement

GASB Statement No. 95 – In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The District postponed the implementation dates of the GASB statements affected by this standard.

NOTE B – CASH AND INVESTMENTS

Cash and investments at June 30, 2020 consist of the following:

Cash and investments in County Treasury	\$ 3,227,671
Cash and investments held with fiscal agents	191,346
Imprest cash	400
Total	\$ 3,419,417

Cash and investments shown on the statement of net position and the balance sheet represent the District's share of the County Treasurer's cash and investment pool and its deposits with outside financial institutions and fiscal agents.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE B – CASH AND INVESTMENTS (CONTINUED)

The District involuntarily participates in the County Treasurer’s cash and investment pool. California Government Code Section 53600, et. seq., and the County investment policy authorizes the following investments: U.S. Treasury securities, U.S. agency securities, local agency bonds, bankers’ acceptances,

commercial paper, negotiable certificates of deposit, repurchase agreements, corporate notes, collateralized certificates of deposit, California Local Agency Investment Fund (LAIF), Certificate of Deposit Account Registry Services (CDARS) certificates of deposit and Supranationals. Other allowable investments pursuant to Government Code Section 53601, although restricted by the County’s investment policy, include mutual funds, mortgage and collateral-backed securities, asset-backed securities, reverse repurchase agreements, and joint powers agency investment pools.

Cash and investments held by fiscal agents represents uncommitted funds held with the Vector Control Joint Powers Agency (VCJPA) Contingency Fund. These funds are used to pay for costs not covered under the VCJPA’s insurance pool programs.

The County has a Treasury Review Panel, which performs regulatory oversight for its pool as required by Treasurer Policy. Investments are stated at fair value in accordance with generally accepted accounting principles. However, the value of the District’s shares in the County investment pool, which may be withdrawn, is determined on an amortized cost basis, which is different than the fair value of the District’s position in the pool. The District’s investment in the County Treasurer’s pool and the VCJPA as of June 30, 2020 are stated at fair value. The money market mutual fund for debt service is stated at net asset value. The County’s comprehensive annual financial report, containing information relating to the County’s cash and investments by risk category, can be obtained from the County Auditor-Controller’s Office or on the County’s website.

GASB Statement No. 40, *Deposit, and Investment Risk Disclosures – an amendment of GASB Statement No. 3*, requires additional disclosures about a government’s deposit and investment risks that include credit risk, custodial credit risk, concentration of credit risk and interest rate risk. The District does not have an investment policy that addresses these specific types of risk.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity its fair value is to changes in market interest rates. The weighted average to maturity of the County’s external investment pool as of June 30, 2020 was 339 days and the Vector Control Joint Powers Agency (VCJPA) external investment pool as of June 30, 2020 was 1,554 days.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District’s investment in the County and VCJPA external investment pools are not rated.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE B – CASH AND INVESTMENTS (CONTINUED)

Custodial Credit Risk

The custodial credit risk for deposits is the risk that in the event of the failure of a depository institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counterparty (i.e., broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: the California Government Code requires that a financial institution secure deposits made by state and local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The District's proportionate share of cash and investments in the County and VCJPA pools at June 30, 2020 are \$3,227,671 and \$191,346, respectively. Deposits and withdrawals from the County and VCJPA external investment pools are made on the basis of \$1 and not fair value. Accordingly, these types of investments are based on uncategorized inputs not defined as a Level 1, Level 2, or Level 3 input.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE C – CAPITAL ASSETS

Changes in the capital assets during the fiscal year ended June 30, 2020 were as follows:

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE D – LONG-TERM LIABILITIES (CONTINUED)

Refinancing Lease - Direct Borrowing

On September 1, 2018, the District entered into a \$2,925,000 site and facilities lease agreement (Lease) between the District, as lessor, and Public Property Financing Corporation of California (Corporation), as lessee, to lease certain property to the Corporation, and simultaneously entered into a lease agreement between the Corporation, as lessor, and the District, as lessee, under which the District leased the property back from the Corporation in return for semiannual lease payments, totaling \$2,925,000, paid upfront to the District. Those proceeds, along with \$205,061 from the District were used to refund \$3,040,000 of outstanding principal and \$11,286 accrued interest on the Certificates, as well as \$78,775 of issuance costs. The original deferred amount on refunding is \$53,276 and is amortized over 10 years beginning September 1, 2018 and ending August 31, 2028. The balance as of June 30, 2020 is \$43,508.

The following is a schedule of total debt service requirements to maturity as of June 30, 2020 for the 2018 refinancing lease:

Year Ending June 30,	Refinancing Lease - Direct Borrowing		
	Principal	Interest	Total
2021	264,000	77,540	341,540
2022	269,000	69,386	338,386
2023	279,000	61,001	340,001
2024	288,000	52,326	340,326
2025	293,000	43,437	336,437
2026-2029	1,273,000	79,269	1,352,269
Total	<u>\$2,666,000</u>	<u>\$382,959</u>	<u>\$3,048,959</u>

NOTE E – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions and injuries to employees. The District and various other districts throughout the State of California formed the Vector Control Joint Power Agency (VCJPA) to provide coverage for workers' compensation, general and property liability exposures and to pay for the administration of the program. The Joint Powers Agreement established for its members the VCJPA General Liability and Workers' Compensation Plans.

The VCJPA is a "risk-sharing pool" and manages one pool for all members. The arrangement allows its members to transfer or pool risks and share in the cost of losses. The District currently reports all its risk management activities in its General Fund. Premiums due to the VCJPA are reported when incurred. Each member of the VCJPA pays an annual premium to the insurance system which is evaluated each year.

The agreement for the formation of the VCJPA provides that the system will be self-sustaining through member premiums and is insured through a commercial company for claims in excess of the self-insured retention.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE E – RISK MANAGEMENT (CONTINUED)

VCJPA members are also permitted to deposit unobligated funds with the VCJPA in the Member Contingency Fund and the Property Contingency Fund. The purpose of these funds is to pay for items not covered under VCJPA's pool programs. The District did not have any claims outstanding not covered by the pool programs. Deposit and withdrawal of unobligated funds may be made by the District at any time.

During the June 5, 2019 VCJPA Board meeting, the Board of Directors approved the dissolution of the Property Contingency Fund (PCF), effective July 1, 2019. The net balance of members' PCF was transferred to the Member Contingency Fund (MCF), effective July 1, 2019. The District's PCF balance that was transferred to the MCF was \$604.

As of June 30, 2020, the District had \$191,346 in the Member Contingency Fund and \$0 in the Property Contingency Fund.

NOTE F – PENSION PLAN

Plan Description

All qualified permanent and probationary District employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within the Miscellaneous risk pool. Rate plans within the Safety and Miscellaneous risk pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan. The District sponsors three rate plans. Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment and the retirement formula of 2.0% at 55 for existing "Miscellaneous Classic" members, 2.0% at 60 for existing "Miscellaneous Second Tier" members and 2.0% at 62 for "PEPRA Miscellaneous Tier" existing members and all future members. The cost-of-living adjustments for each plan are applied as specified by California Public Employees' Retirement Law (PERL).

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE F – PENSION PLAN (CONTINUED)

The rate plan provisions and benefits in effect as of June 30, 2020 are summarized as follows:

	Miscellaneous Classic Plan	Miscellaneous Second Tier Plan	PEPRA Miscellaneous Tier Plan
	Hired on or before June 30, 2011	Hired on or after July 1, 2011	Hired on or after January 1, 2013
Hire Date	June 30, 2011	July 1, 2011	January 1, 2013
Benefit formula	2.0% at 55	2.0% at 60	2.0% at 62
Minimum service years to vest	5	5	5
Benefit payments	monthly for life	monthly for life	monthly for life
Earliest allowable retirement age	50	50	52
Monthly benefits, as a % of eligible compensation	1.43% - 2.00%	1.09% - 2.00%	1.00% - 2.00%

Contributions

Section 20814(c) of PERL requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process.

For public agency cost-sharing plans covered by the Miscellaneous risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employees under the Miscellaneous Classic, Miscellaneous Second Tier and PEPRA Miscellaneous Tier rate plans are required to contribute 7%, 7% and 6.25% of their annual pay, respectively. The District's contractually required contribution rates for the year ended June 30, 2019, for the Miscellaneous Classic, Miscellaneous Second Tier and PEPRA Miscellaneous Tier, were 8.892%, 7.634% and 6.842%, respectively, of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District's contributions to the pension plan were \$181,585 for the fiscal year ended June 30, 2020.

Pensions Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a net pension liability of \$554,704 for its proportionate share of the net pension liability. The net pension liability of the Plan was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial evaluation as of June 30, 2018 rolled forward to June 30, 2019. The District's proportion of the net pension liability of the Plan was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the District's proportion was 0.00541%, which was an increase of 0.000560% from its proportion measured as of June 30, 2018.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE F – PENSION PLAN (CONTINUED)

As of June 30, 2020, the District reported a pension expense of \$105,244 and reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 56,877	\$ 4,407
Change in assumptions	39,050	13,843
Employer pension contributions paid by District subsequent to measurement date	181,585	-
Net difference between projected and actual earnings on pension plan investments	-	14,317
Changes in proportion and differences between District contributions and proportionate share of contributions	96,468	-
	<u>\$ 373,980</u>	<u>\$ 32,567</u>

The deferred outflows of resources of \$181,585 results from pension contributions made subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the next fiscal year. Amounts reported as deferred outflows and deferred inflows of resources related to pensions, will be recognized in future pension expense as follows:

<u>Year Ended June 30</u>	
2021	\$ 128,685
2022	21,471
2023	6,780
2024	2,892
	<u>\$ 159,828</u>

NOTE F – PENSION PLAN (CONTINUED)

Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation, rolled forward to June 30, 2019, was determined using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Services
Investment Rate of Return	7.15% Net of Pension Plan Investment, includes Inflation
Mortality Rate Table ¹	Derived using CalPERS' Membership Data for All Funds

¹ The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

Changes of assumptions

There were no changes of assumptions for the measurement year ended June 30, 2019.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE F – PENSION PLAN (CONTINUED)

The expected real rates of return by asset class are as follows:

Asset Class	Assumed Asset Allocation	Real Return Years 1 - 10 ¹	Real Return Years 11+ ²
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.92%
Liquidity	1.0%	0.00%	-0.92%
Total	<u>100.0%</u>		

¹ An expected inflation of 2.00% used for this period

² An expected inflation of 2.92% used for this period

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability, calculated using the discount rate of 7.15%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.15%) or 1 percentage point higher (8.15%) than the current rate.

Discount Rate - 1%	6.15%
Net Pension Liability	\$ 1,049,375
Current Discount Rate	7.15%
Net Pension Liability	\$ 554,704
Discount Rate + 1%	8.15%
Net Pension Liability	\$ 146,389

FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE G – OTHER POSTEMPLOYMENT BENEFITS

Plan Description

In addition to the pension benefits described in Note F, the District provides post-retirement healthcare benefits to its retirees under its single-employer defined benefit healthcare plan administered by CalPERS as permitted under the Public Employees' Medical and Hospital Care Act (PEMHCA). The District has established an other postemployment benefits (OPEB) trust account with the California Employers' Retiree Benefit Trust (CERBT), an agent multiple employer plan administered by CalPERS. CalPERS' issues a publicly available Comprehensive Annual Financial Report that includes financial statements and required supplementary information. Copies of CalPERS' annual financial report may be obtained from their Executive Office, 400 Q Street, P.O. Box 942701, Sacramento, California 94229.

Benefits Provided

In accordance with California Government Code, all employees electing a CalPERS retirement date within 120 days of retiring from the District are eligible to receive healthcare benefits for life. Employees who retire directly from the District at the age of 55 or older and with at least 10 years of District and CalPERS service are eligible to receive the enhanced benefits, referred to as the District Supplemental Benefit Stipend. These benefits are payable for the lifetime of the retiree and his or her spouse at one of the following stipends:

- 1) If hired prior to July 1, 2008, the District will contribute 100% of the premium for the retiree and his or her spouse up to the Kaiser plan rates (by coverage level) in the Sacramento region.
- 2) If hired after July 1, 2008 but prior to July 1, 2011, the District will contribute the lessor of (a) and (b) below:
 - (a) 100% of the monthly premium for the retiree and his or her spouse.
 - (b) The Kaiser plan rates (by coverage level) in the Sacramento region multiplied by the appropriate percentage from the District Retiree Medical Benefit Schedule, based on the employee's years of service with the District.
- 3) If hired on or after July 1, 2011, but prior to July 1, 2017, the District will contribute the lessor of (a) and (b) below:
 - (a) 100% of the monthly premium for the retiree and his or her spouse.
 - (b) 80% of the Kaiser plan rates (by coverage level) in the Sacramento region multiplied by the appropriate percentage from the District Retiree Medical Benefit Schedule, based on the employee's years of service with the District.
- 4) If hired on or after July 1, 2017, the District will contribute the lessor of (a) and (b) below:
 - (a) 100% of the monthly premium for the retiree and his or her spouse.
 - (b) 80% of the Kaiser plan rates (by coverage level) in the Sacramento region multiplied by the appropriate percentage from the District Retiree Medical Benefit Schedule, based on the employee's years of service with the District, with the benefit ending at the earlier of the member's age 65, or Medicare eligibility.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE G – OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The District Retiree Medical Benefit Schedule applies a percent to the District’s otherwise maximum monthly subsidy for retirees hired on or after July 1, 2008:

District Retiree Medical Benefit Schedule

<u>Years of District Service</u>	<u>% of Full Benefit Paid</u>	<u>Years of District Service</u>	<u>% of Full Benefit Paid</u>
Less than 10	0%	15	75%
10	50%	16	80%
11	55%	17	85%
12	60%	18	90%
13	65%	19	95%
14	70%	20 or more	100%

Employees Covered

At June 30, 2020, the following employees were covered by the benefit terms:

Active plan members	21
Retirees and beneficiaries receiving benefits	2
Inactive plan members entitled to but not yet receiving benefits	-
Total	23

Contributions

Under PEMHCA, the District is obligated to contribute toward the cost of retiree medical coverage for all employees who retire from the District for the retiree’s lifetime or until CalPERS medical coverage is discontinued.

All employees who retire from the District who are eligible to continue coverage in retirement will receive the required PEMHCA minimum employer contribution (MEC). Benefits continue to a covered surviving spouse as well, if eligible for survivor benefits under the retirement program. The MEC was \$136 per month in 2019 and increased to \$139 per month in 2020.

The District’s Board of Directors is granted the authority to establish and amend contribution requirements of the District, in excess of the minimum for plan members. The Board establishes rates based on an actuarially determined rate based on annual actuarial valuation reports.

During the fiscal year ended June 30, 2020, the District contributed \$166,905 to the OPEB plan. Of this amount, the District paid \$20,676 in benefits provided to retirees during the year and \$146,229 to the CERBT.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE G – OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Net OPEB Liability

The District’s net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019.

Actuarial assumptions – The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	June 30, 2019
Measurement date	June 30, 2019
Contribution policy	Pre-funded through CERBT asset allocation Strategy 2
Actuarial assumptions:	
Discount rate	6.55%
Inflation	2.50%
Investment rate of return ¹	6.55%
Salary increases	3.00% per year, used only to allocate the cost of benefits between service years.
Mortality, retirement, disability, termination	CalPERS 2014 experience study using 1997-2011 experience data.
Mortality improvement	MacLeod Watts Scale 2018 applied generationally.
Healthcare Cost Trend Rate	5.4% for 2021, grading down to 5% for years 2050 and thereafter.

¹ Same as discount rate. Plan assets projected to be sufficient to pay all benefits from trust

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE G – OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Real Return Years 1 - 10 ¹	Real Return Years 11+ ²
Global Equity	40.0%	4.80%	5.98%
Fixed Income	43.0%	1.10%	2.62%
Global Real Estate (REITs)	8.0%	3.20%	5.00%
Treasury Inflation Protected Securities	5.0%	0.25%	1.46%
Commodities	4.0%	1.50%	2.87%
Total	<u>100.0%</u>		

¹ An expected inflation of 2.00% used for this period

² An expected inflation of 2.92% used for this period

Discount Rate

The discount rate used to measure the total OPEB was 6.55%. The projection of cash flows used to determine the discount rate assumed that the District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Net OPEB liability as a percentage of covered-employee payroll	29.80%	32.16%	31.36%
Measurement Date	6/30/2019	6/30/2018	6/30/2017

(1) Fiscal year 2018 was the first year of implementation of GASB 75; therefore, only three years are shown.

**PLACER MOSQUITO AND VECTOR CONTROL DISTRICT
SCHEDULE OF THE DISTRICT'S OPEB CONTRIBUTIONS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
LAST TEN YEARS^(A)
(UNAUDITED)**

	<u>2020</u>	<u>2019</u>	<u>2018^B</u>
Actuarially determined contribution	\$ 138,408	\$ 134,126	\$ 110,465
Contributions in relation to the actuarially determined contribution	166,905	169,880	116,868
Contribution deficiency (excess)	<u>\$ (28,497)</u>	<u>\$ (35,754)</u>	<u>\$ (6,403)</u>
Covered payroll	\$ 1,795,297	\$ 1,743,007	\$ 1,604,713
Contributions as a percentage of covered payroll	9.30%	9.75%	7.28%

Notes to schedule:

Actuarial methods and assumptions used to set the actuarially determined contributions for fiscal year 2020 were from the July 1, 2017 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Funding Method	Entry Age Normal Cost, level percent of pay
Amortization method	Level percentage of payroll
Amortization period ¹	30 years closed
Asset valuation method	Market value of assets
Investment rate of return ²	6.55%
Discount rate ²	6.55%
Participants valued	Only current active employees and retired participants and covered dependents are valued. No future entrants are considered in this valuation.
Salary increase	3.25% per year, used only to allocate the cost of benefits between service years.
Assumed wage inflation	3.00% per year, used to determine amortization payments if developed on a level percent of pay basis.
General inflation rate	2.75% per year
Mortality improvement	MacLeod Watts Scale 2017 applied generationally.
Medicare eligibility	Absent contrary data, all individuals are assumed to be eligible for Medicare Parts A and B at age 65.
Healthcare trend ³	7.5% for 2019, grading down to 5% for years 2024 and thereafter.

(A) Fiscal year 2018 was the first year of implementation of GASB 75; therefore, only three years are shown.

(B) Fiscal year 2018's contribution in relation to the actuarially determined contribution and related contribution as percentage of covered payroll were reduced by \$21,004 and 1.31% respectively to correct an overstatement.

(1) Amortization period was 24 years in the actuarial report for fiscal year ending June 30, 2018 (June 30, 2017 measurement period).

(2) Investment rate of return and discount rates were 6.73% in the actuarial report for fiscal year ending June 30, 2018 (June 30, 2017 measurement period).

(3) Healthcare trend was Medicare - 7.5% for 2019 and 6% for 2018, decreasing to an ultimate rate of 5% for years 2021 and thereafter in the actuarial report for fiscal year ending June 30, 2019 (June 30, 2019 measurement period).

NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – BUDGETS AND BUDGETARY ACCOUNTING

Formal budgetary accounting is employed by the District as a management control for the District's general fund. The Board of Directors adopts an annual budget each fiscal year. The budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. Budgetary control is exercised at the fund level. All amendments to the budget are reflected in the financial statements and require the approval of the Board of Directors. All unencumbered annual appropriations lapse at the end of each fiscal year. There are no encumbrances outstanding at year-end.

OTHER REPORT

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Placer Mosquito & Vector Control District
Roseville, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and the general fund of Placer Mosquito & Vector Control District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Placer Mosquito & Vector Control District's basic financial statements, and have issued our report thereon dated June 10, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Placer Mosquito & Vector Control District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Placer Mosquito & Vector Control District's internal control. Accordingly, we do not express an opinion on the effectiveness of Placer Mosquito & Vector Control District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

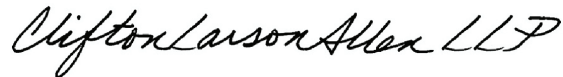

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Placer Mosquito & Vector Control District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
